KS-7715 Series POS Terminal

KS-7715 Posiflex's new flagship POS terminal designed to amaze with its external elegance and internal substance. Dressed in **all new Bezel Free** outfit that caters for **Projected Capacitive or Resistive** touch option, instantly transform the normally distinguished looking KS series into something even more elegant and stylish.

More than mere good looks, KS-7715 has the very latest **Intel Core i5 processor** brain to match its updated appearance, and coupled with the Posiflex's patented Aluminum Die-Casting structure, making it the world's most powerful Fanfree POS terminal.

No other POS terminal combines elegant appearance, energy efficiency and most importantly, powerful performance from Intel Core i5 processor into an advanced FanFree design. And together with reliability that is synonymous with Posiflex brand makes KS-7715 the most desirable addition to any retail and hospitality environment.
